

**Special Sessions on
“Macrosystem techniques for Modeling and Control Manufacturing
Systems”**

June 3-5, 2009, Moscow, Russia

<http://incom09.org/>

<http://ifac.papercept.net/>

Session chairs

Popkov Y.S., Institute for Systems Analysis, Russia, popkov@isa.ru

Session Topics:

- Macrosystem approach to modeling manufacturing systems
- Equilibrium and Nonequilibrium states
- Numerical methods for macrosystem modeling
- Applications of macrosystem models for control
- Applications of macrosystem approach for modeling of transportation flows
- Modeling of manufacturing systems interaction
- Spatial structures of manufacturing systems
- Economical interaction of manufacturing systems
- Macrosystem approach in decision making

Important dates:

December 11, 2008: deadline for paper submission

January 26, 2009: notification of acceptance/reject

March 15, 2009: deadline for final paper.
